FEATURED SPEAKER

Michael Lohan

Father, Ordained Minister, Investment Banker,
Drug and Alcohol Treatment Center Owner/Operator, and Writer

You may know Michael Lohan as the father of the famous American actress and singer Lindsay Lohan. Not only is Michael a well-known media personality, but also an accomplished business consultant and founder of "Recover America." Mr. Lohan has learned first-hand what it is like to be under world-wide scrutiny after witnessing his daughter's personal life spiral out of control and played out in the media. Since then Michael has begun a nation-wide effort, "Recover America," and is currently touring the U.S. raising awareness, hope and educating local communities about the current opioid epidemic. His nation-wide effort to "Recover America" began in Florida and will proceed upward through the east coast and is scheduled to be in Texas in October. Michael started his professional career as a trader on the floor of the New York Mercantile Exchange. He has worked for notable national and international corporations over the span of his career and is a dedicated father of seven children.

About The Council on Alcohol & Drug Abuse

The mission of The Council on Alcohol & Drug Abuse is to improve our communities' health, safety and productivity by reducing the incidence and impact of alcohol and drug abuse. This is achieved through an expansive network of evidence-based services that **prevent** problems with alcohol and other drugs before they occur, **intervene** when they do and **promote recovery** for people already addicted.

For 71 years, the Council has developed relationships and connections positively affecting community dialogue, resource sharing, community development and evidence-based solutions to the #1 preventable health problem in the United States – substance abuse. The Council's work has received accolades and awards, coverage by national publications, and inclusion in the *Congressional Record*. But most importantly, since opening its doors in 1946, thousands of North Texans have been reached, changed and/or saved. **Last year alone, the Council trained or directly served nearly 35,000 people.** This was made possible because of donations, sponsorships and support of local community members, foundations, organizations and companies.
